8th Annual

CISO Summit & Roundtable

Cyber Crime, Risk Resilience & Security Governance
What do the Next 5 Years Hold? How are Key Areas Maturing?

8 - 10 June 2011
Ergife Palace Hotel,
Rome

Benchmark & Network with Senior Security Peers from:

- Bank of England
- Barclays
- Beazley
- BP plc
- British Sky Broadcasting Ltd
- International Computing Centre (ICC)
- Investec
- Lloyd's
- Microsoft Trustworthy Computing Group
- Nationwide Building Society
- Politecnico di Milano
- Santander
- Thomson Reuters
- TNT Express
- Transport for London
- UBS
- University of Rome
- VocaLink
- Vodafone Omnitel N.V.
- Zynga

Security, Resilience & Privacy in the Cloud:
The Risks, Benefits & Challenges for CISOs

7 June 2011, Ergife Palace Hotel, Rome

**Special Keynote by: Jim Reavis, Executive Director,
Cloud Security Alliance (USA)**

- Define roles for the CISO in the Cloud: where are we now?
- Evaluate security risks & prepare for the top emerging risks in cloud adoption
- How can we expect the information security industry to be radically transformed by both securing & leveraging the Cloud?

Cloud Security Forum Sponsors:

CISO Summits - a 7 years proven track record in...

- Uniting & inspiring senior information security executives for a direct share of experiences, challenges & approaches via fresh case studies, dynamic debates & high profile keynotes - "a 'must attend' event for Chief Information Security Officers"
- Creating a friendly, relaxed, professional yet intimate atmosphere with "an amazing level of networking & interaction"
- Getting the right people in the room for open discussions, sharing of ideas & great debate! "The place to learn & exchange ideas on current information security threats - the mix of training & debate avoids re-inventing the wheel"

Participate in the programme that speaks directly to CISOs....

Firmly established as Europe's premier networking and thought leadership forum for senior security and technology risk executives, MIS Training Institute is delighted to announce the **8th Annual CISO Summit & Roundtable 2011** (8th - 10th June 2011) and the new adjoining **1-day Cloud Security Forum** (7th June 2011), taking place in the beautiful historic city of Rome.

The core theme for 2011 is: **Cyber Crime, Risk Resilience & Security Governance: What do the Next 5 Years Hold?** How are Key Areas Maturing? Attend to gain insights into crux questions: What will prove to have the biggest impact and long term effects on the information security profession? How are your peers preparing for the future? How can you define today's and tomorrow's high value targets? Does the CISO job description really need to be re-written?

Rome 2011 promises to provide the most thoughtful discussions yet given recent emerging security trends and stories directly impacting the profession. It has been a busy period for cyber criminals. Take 'Operation Aurora'; Stuxnet; Zeus; iPad Info Hack. Add to this WikiLeaks, ongoing social networking privacy debates, calls for new cyber security legislation... All are stoking existing tactical, operational and strategic challenges in data leakage; privacy; insider threat, security governance; risk continuities; digital IP theft; mobile; encryption; adoption of Cloud computing; critical national infrastructure protection; counter cyber terrorism; network & application security...

Agenda at a Glance

7th June	Cloud Security Forum
8th & 9th June	CISO Summit
10th June	CISO Roundtable

CISO Roundtable - Friday 10th June 2011

The unrivalled benchmarking forum for open share of ideas and interactive discussion, on the most critical challenges in information security!

- Held under The Chatham House Rule - a truly closed doors environment
- Key topic areas of focus determined by the input of participants beforehand
- Hands-on; interactive; no death by PowerPoint!
- Morning 'Spouse-Partner Programme' in Rome during the roundtable

Networking Opportunities - Build Trust-Based Relationships at the CISO Summit in Rome!

Meeting your security peers to exchange ideas & build trust-based networks is an integral part of the CISO Executive Summit & Roundtable event experience. As such, MIS & Sponsors have set aside dedicated time for networking, which will allow you to enjoy your time in Rome, whilst you get to know senior security peers. Please note that the venues for activities are all provisional to date.

Networking Agenda - All Included in the Fee

Tuesday 7th June 'Cloud Nine' Reception - Kindly Sponsored by:

Wednesday 8th June Cocktail Reception - Kindly Sponsored by:

Wednesday 8th June Dinner - Kindly Sponsored by:

Thursday 9th June Tour or Reception - Kindly Sponsored by:

Thursday 9th June Dinner - Kindly Sponsored by:

Key themes for CISO Summit & Roundtable 2011

- Cyber crime & data leakage
- Handheld, mobile security
- Identity Management, Security & Privacy
- Insider threat: building a secure workforce
- Advanced persistent cyber attacks - hacking, network security, cyber terrorism, critical cyber national infrastructure
- Emerging discipline of resilience: converging risk security & continuity activities within a common framework - focusing on the high level to convey concepts, ideas & practice...
- Cloud security - security, resilience & privacy in the cloud. The risks, benefits & challenges for CISOs...

What's new for 2011?

1. Dynamic new keynotes including:

- "Cloud Security Megatrends: An inside look at enterprise Cloud adoption, lessons learned, and how Cloud is disrupting Policy, Regulations and the Information Security Industry" - Special Keynote by the Co-founder, Executive Director & Driving Force of the Cloud Security Alliance, U.S., Jim Reavis!
- "Strategic Partnerships For Cyber Security: Identify, Prevent, Deter & Detect The Reality" by Don Randall MBE, Head of Security, Bank of England & Chairman of the 'Sister Banks', the City of London Crime Prevention Association and 'Project Griffin'
- "The Science Of Secrecy" - Keynote & Demonstration Of A Genuine Second World War Enigma Cipher Machine by Dr. Simon Singh, Best-Selling Author; Journalist, Radio Broadcaster, TV Producer and Director

2. New international case studies on 'first of a kind' achievements, insights & analysis...

Bank of England; International Computing Centre (ICC); TNT Express; Investec; UBS; BP plc; Lloyd's; Barclays; Microsoft Trustworthy Computing Group; Beazley; Transport for London (TfL); Santander; Nationwide Building Society; British Sky Broadcasting Ltd; Thomson Reuters; Vocalink... and many more to join!

3. New Thought-Leadership 'CISO Think Tanks' - dedicated rotational discussion sessions on specific topics to progress dialogue on how key areas are maturing - risks, threats, tools, solutions!

4. New - Cloud Security Forum - 7th June! Officially supported by the Cloud Security Alliance, U.S. -with leadership contributions from European CSA Chapters

5. Panel Debates:

- Advanced persistent cyber threats & critical infrastructure protection; IP theft & industrial espionage in the form of cybercrime - a real national threat? Physical & cyber infrastructure security: have the boundaries really become inseparably blurred?
- The consumerisation of mobile technology: the challenge of securing hand held devices
- Stopping cyber criminals: facing the growing threat of online fraud against retail & banking customers
- Security governance & the insider threat: protecting critical assets
- Rewriting the CISO job description: trends for information security profession
- The CISO radar of changing threats - what are the "next big things" that will hit the headlines within the next 5 years?

6. Extensive peer interaction in Rome - CISO Summits are renowned for the networking opportunities - enjoy included sponsored networking drinks, dinner, breakfasts & local visits while you build your trusted contact bases!

Deloitte... In a rapidly changing world where information has a significant value, supply chains are interconnected and there is uncertainty when doing business on a global basis, the security and resilience of operations has become a board level issue. The Deloitte Security & Resilience practice is independently recognised as a market leader in providing the full spectrum of information security and IT risk consulting services. "Deloitte's vision of becoming the client's trusted partner, coupled with its extensive list of services and technical and business experience, separates it from the rest of the pack." The Forrester Wave™: Information Security And Risk Consulting Services, Q3 2010, Forrester Research, Inc., August, 2010. With a wealth of industry knowledge and both business advisory experience and technical expertise, the Deloitte Security & Resilience team is able to offer a full spectrum of services to clients encompassing information security, corporate & physical security and business & technology resilience which can help bring real, long-lasting benefits. Visit www.deloitte.co.uk/securityandresilience. References to Deloitte are references to Deloitte LLP which is among the country's leading professional services firms. Deloitte LLP is the United Kingdom member firm of Deloitte Touche Tohmatsu Limited ("DTTL"), a UK private company limited by guarantee, whose member firms are legally separate and independent entities. Please see www.deloitte.co.uk/about for a detailed description of the legal structure of DTTL and its member firms.

Accenture's Information Security services help clients protect information, critical infrastructures, applications & key business processes against cyber threats. At the same time, we help enable new business initiatives & innovation, by managing & understanding risks & balancing them against the rewards of growth. Benefits include improved productivity & business growth, achieved of compliance targets, increased shareholder value & increased customer trust. Accenture Information Security services are differentiated by our deep expertise & comprehensive capabilities in security, paired with our global reach. We approach security as a fundamental building block to be integrated into all business processes. With approximately 211,000 people serving clients in more than 120 countries, the company generated net revenues of US\$21.6 billion for the fiscal year ended Aug. 31, 2010. For more information on our security capabilities, please visit www.accenture.com/security.

Novell Security Management solutions provide organizations with intelligence & real-time visibility into their IT environment to mitigate security threats, improve operations & enforce policy controls across physical, virtual & cloud environments. Novell provides innovative & powerful log management, & includes the most robust, scalable, & mature SIEM product in the market, trusted & proven in some of the world's largest organizations. Novell Sentinel, a complete SIEM solution, delivers the industry's only seamless integration with identity management to tie users to specific activities across all environments. Novell Sentinel Log Manager solves the challenge of managing exploding amounts of log data, eliminating compliance hassles & speeding forensic response. Put your organization on the path to eliminating security blind spots with Novell Security Management solutions. www.novell.com/solutions/security-management

Brainloop - with offices in Munich and Boston, is the leading supplier of software solutions for high-security document collaboration. Brainloop's secure online workspace is a virtual document safe that enables secure filing, editing & distribution of highly confidential documents within a single company, & beyond. All contents are powerfully protected from unauthorized internal or external access, & all actions within the application are documented by a tamper-proof audit trail. Frequent uses include contract negotiations, collecting data & compiling quarterly reports, collaboration with external auditors and counsel, & any other communication that contains confidential information. Brainloop customers are Deutsche Telekom, BMW, ESA (European Space Agency), ThyssenKrupp, T-Systems, Zurich, Eurocopter, Allianz, PUBLIGroupe, TaylorWessing, Microsoft, Shearman&Sterling & many more. www.brainloop.com.

CISO Roundtable Lead Sponsor

NetWitness® Corporation - is the world leader in real-time network forensics & automated threat intelligence solutions, helping government & commercial organizations detect, prioritize & remediate complex IT risks. NetWitness solutions concurrently solve a wide variety of information security problems including: advanced persistent threat management; sensitive data discovery & advanced data leakage detection; malware activity discovery; insider threat management; policy & controls verification & e-discovery. Originally developed for the US Intelligence Community, NetWitness has evolved to provide enterprises around the world with breakthrough methods of network content analysis & host-based risk discovery & prioritization. NetWitness customers include Defense, National Law Enforcement & Intelligence Agencies, top U.S. & European Banks, Critical Infrastructure, & Global 1000 organizations. NetWitness has offices in the U.S. and the U.K. & partners throughout North & South America, Europe, the Middle East, & Asia. To download the freeware version of NetWitness Investigator™, visit <http://download.netwitness.com>.

British Telecom - a global networked IT services organisation with a long-established, respected reputation for providing solutions that address all aspects of security & business continuity across all markets. It has a comprehensive suite of security services for customers, based on a proven consultancy approach, deep technical knowledge & extensive experience. BT's team includes world-leading security consultants with an unparalleled resource of knowledge & skill. It has an in-depth understanding of both national & international standards, & is accredited by a number of government organisations. BT has implemented security measures across its own global organisation where the scale & complexity of the operation is matched by few other companies. www.bt.com.

The Cloud Security Forum is Officially Supported & Endorsed by:

The Cloud Security Alliance is a non-profit organization formed to promote the use of best practices for providing security assurance within Cloud Computing, and provide education on the uses of Cloud Computing to help secure all other forms of computing. The Cloud Security Alliance is comprised of many subject matter experts from a wide variety of disciplines, united in our objectives:

- Promote a common level of understanding between the consumers and providers of cloud computing regarding the necessary security requirements and attestation of assurance.
- Promote independent research into best practices for cloud computing security.
- Launch awareness campaigns and educational programs on the appropriate uses of cloud computing and cloud security solutions.
- Create consensus lists of issues and guidance for cloud security assurance

About the Cloud Security Forum

Key Sessions at Cloud Security Forum

Dedicated to tackling security best practices & challenges around the Cloud, you will hear from the drivers, leaders & practitioners who have defined cloud security. Share experiences with people who are actually deploying Cloud solutions - from technical, assurance & governance perspectives - **focus around real security risks, benefits & challenges rather than just the theoretical worries!**

- ✓ **Jim Reavis, the Co-founder, Executive Director & Driving Force of the Cloud Security Alliance** - Cloud Security Megatrends: An inside look at enterprise Cloud adoption, lessons learned, and how Cloud is disrupting Policy, Regulations and the Information Security Industry!
- ✓ **Andreas Christoforides, Director, International Computing Centre (ICC)** - Key Case Study - Private Cloud Deployment For The International Organizations - current challenges around privileges, immunities, jurisdiction, confidentiality & data sensitivity - protecting data & systems entrusted to the International Organizations!
- ✓ **Nils Puhmann, Co-Founder, Cloud Security Alliance & CSO, Zynga** - new keynote from one of the hottest Internet companies in the world!
- ✓ **Dr. Sally Leivesley, Director - Newrisk Limited** (Adviser to Governments & Businesses on Catastrophic Risk) - Cloud from a Catastrophic Risk & Reputation View!
- ✓ **Panel debates:** Cloud security misconceptions that are shaping some of the current debates in public & private sector? Security impact of current initiatives by the European Commission, ENISA? Partnerships to ensure the secure delivery of application, information & infrastructure for both public & private clouds? What are the top real risks in the cloud? Hacking, data loss, privacy, storage, identity management, confidentiality & forensics
- ✓ **Focused Break-out 'Think Tanks':** Audit & compliance challenges; cloud security architecture; 50 ways to lose your data; the 7 deadly sins: what is the CISO role in the cloud? - provide the ultimate 'where are we now' opportunity!

Ideal to:

- Gain full transparency & benchmarking on the Cloud
- Evaluate security risks & prepare for the top emerging risks in Cloud adoption
- Hear real experiences of actual deployment: what worked what didn't in security wrapping Cloud infrastructures
- Define roles for the CISO, CTO & business executives on the Cloud - Will Cloud computing drive an increase in demand for CISO skills?
- Top questions to ask your provider - commercial risks; privacy issues; legal and regulatory

Cloud Security Forum

7 June 2011, Rome Security, Resilience & Privacy in the Cloud:
The Risks, Benefits & Challenges for CISOs...

Officially supported & endorsed by

08:30 MORNING COFFEE & REGISTRATION

08:30 CHAIRMAN'S OPENING

08:40 CLOUD SECURITY MEGATRENDS: AN INSIDE LOOK AT ENTERPRISE CLOUD ADOPTION, LESSONS LEARNED, & HOW CLOUD IS DISRUPTING POLICY, REGULATIONS & THE INFORMATION SECURITY INDUSTRY KEYNOTE

Jim Reavis will provide insights into real world cloud implementations & key lessons learned from both a business & security perspective. He will also discuss prospects for the impact of Cloud on global public policy & regional regulations. Finally, Jim will explain how we can expect the information security industry to be radically transformed by both securing & leveraging the Cloud.

Jim Reavis, *Executive Director, Cloud Security Alliance*

09:20 TRUSTED PUBLIC CLOUD: WILL WE EVER HAVE ONE? KEYNOTE

Security is the main issue that is preventing organisations from using cloud based services.

- How do organisations know their data is secure?
- How do they know where the data is held?
- What assurances do organisations have over who is accessing their information?

Derek Kay, *Director, Cloud Services, Deloitte Consulting* & Tim Best, *Senior Manager, Security & Resilience, Deloitte UK*

10:00 PRIVATE CLOUD COMPUTING: A DEPLOYMENT FOR THE INTERNATIONAL ORGANIZATIONS KEY CASE STUDY

- Protecting data & systems entrusted to the International Organizations by Member States
- Challenges around privileges & immunities, jurisdiction, confidentiality & data sensitivity
- Managing political implications when considering the use of cloud computing services
- Experiences of creating a Private Cloud Computing setup currently being established at ICC

Andreas Christoforides, *Director, International Computing Centre (ICC)*

10:30 MORNING COFFEE BREAK

11:00 WHAT CLOUD SECURITY MISCONCEPTIONS ARE SHAPING SOME OF THE CURRENT DEBATES IN PUBLIC & PRIVATE SECTOR? WHAT IS THE SECURITY IMPACT OF CURRENT INITIATIVES BY THE EC, ENISA...? PANEL

- What is the real impact of current initiatives by European Commission, ENISA?
- Cross-border policy challenges facing cloud security - new approaches
- Top challenges in assurance, risk management, audit & compliance?
- How can the security industry work together to ensure the secure delivery of application, information & infrastructure for both public & private clouds?

Chaired by: Jim Reavis, *Executive Director, Cloud Security Alliance (USA)*
Panellists: Matt Broda, *Senior Security Strategist, Cloud Security, Microsoft Trustworthy Computing Group*; Dr. Alastair MacWillson, *Managing Director of Global Security Practice, Accenture*; Simon Pascoe, *Security Architect, BT*; Nils Puhmann, *Co-Founder, Cloud Security Alliance & CSO, Zynga*

11:30 REAL EXPERIENCES OF WRAPPING SECURITY ARCHITECTURE INTO THE CLOUD: THE CTO VIEW KEY CASE STUDY

- Security risk mitigation, transition & transformation planning
- Tips for leading a security review of moving email onto the Cloud as the initial phase of Cloud deployment
- Thoughts on Cloud computing architecture & security

CTO - to be confirmed

12:00 IS CLOUD COMPUTING THE END OF EU DATA PRIVACY? KEYNOTE

Eddie Schwartz, *CSO, NetWitness Corporation*

12:20 LUNCH

13:20 BLACK CLOUDS & WHITE CLOUDS: WHAT ARE THE TOP REAL RISKS IN THE CLOUD? DO CLOUD RISKS EXPAND THE CISO REMIT? PANEL DISCUSSION

Evaluate security risks & prepare for the top emerging risks in Cloud adoption: hacking, data loss, privacy, storage, identity management, confidentiality & forensics.

- Exposure of sensitive information to unauthorised systems or personnel
- Confidential data loss or leakage
- Identity management in the cloud
- Hacking the cloud
- Understanding your susceptibility to cyber attacks (especially government Clouds)
- Top 10 questions to ask your cloud provider

Chaired by: Tim Best, *Senior Manager, Security & Resilience, Deloitte UK*
Panellists: David Cripps, *CISO, Investec*; Eddie Schwartz, *CSO, NetWitness Corporation*; Michael Colao, *Information Security Manager, Beazley*; Jorge Pinto, *Chief Security Officer, Bank Credibom Portugal*

14:00 ALIGNING INTERNAL & EXTERNAL STRATEGIES FOR CLOUD SECURITY KEY CASE STUDY

Matt Broda, *Senior Security Strategist, Cloud Security, Microsoft Trustworthy Computing Group*

14:30 - 15:10 BREAKOUT SESSIONS - PLEASE CHOOSE FROM 3 FOCUSED 'THINK TANK' DISCUSSIONS:

Participate in interactive strategy sessions to actively shape new deliverables for the industry - roundtables, panel debates, break outs...

ROOM 1: AUDIT & COMPLIANCE CHALLENGES IN THE CLOUD: WHAT SHOULD EVERY CIO & CISO KNOW?

Led by: Mohamed El-Refaey, *Founder, Egypt Cloud Community Forum (ECF) & Director, Cloud Security Alliance, Egypt Chapter*

ROOM 2: HER MAJESTY'S GOVERNMENT: HEAD IN THE CLOUD? PUBLIC CLOUD CASE STUDY

Led by: Geoff Harris, *UK Management Counsel, Information Systems Security Association (ISSA)*

ROOM 3: BT'S APPROACH TO CLOUD SECURITY - RISKS, ARCHITECTURES & CLOUD SECURITY RESEARCH PROGRAMME

Simon Pascoe, *Security Architect, BT*

15:10 AFTERNOON TEA BREAK & EXHIBITION

15:40 CLOUD CATASTROPHIC RISK & REPUTATION ASSURANCE FOR CISOs KEYNOTE RISK INSIGHTS

Cloud vending promises a breakthrough in business costs & outsourcing of assurance risk. This presentation encourages CISOs to start their own discussion on internal models for catastrophic risk assurance because novel systems do not come with a risk history.

- New challenges for CISOs
- Internal security framework: starting the discussion
- Cyber threats & reputation resilience under cloud
- Using transparency & acknowledging uncertainty
- Business drivers; understanding uncontrollable risk variables; early management in novel systems
- Getting risk metrics: participant discussion
- Catastrophic risk monitoring; social & economic benefits; legal & reputation issues; insider threat monitoring

Dr. Sally Leivesley, *Director, Newrisk Limited (Adviser to Governments & Businesses on Catastrophic Risk)*

Dr. Leivesley is a specialist in catastrophic risk management across all sectors of business and government. She works on vulnerability analysis and stress testing of resilience. During high profile national security breaches or commercial exposures Dr Leivesley provides commentary the BBC and other global media upon request. Dr Leivesley has initiated blue skies research on innovative solutions to legacy SCADA vulnerabilities and new systems of information communication in a 'post-encryption society'.

16:20 CLOUD COMPUTING: 50 WAYS TO LOSE YOUR DATA GROUP DISCUSSION

Criminals & competitors don't want your network - they want your data! Peter & other speakers will show you some real-world threats posed by "Cloud Computing" & suggestions for mitigating the risk.

Cloud computing provides criminals & competitors with unprecedented opportunities for theft & fraud. The "gaps" between partner organisations, & the absence of any real possibility of audit & control, gives thieves potential access to corporate information & sensitive data. When you leave this session you will...

- Understand the gaps that cloud computing can create
- Recognise why organisations are vulnerable
- Know how to start to defend your organisation
- Do you know who's guarding your data?
- What to do when faced with a security breach by your Cloud provider?

Led by: Peter Wood, *Chair of the Advisory Board, Cloud Security Alliance, UK & Ireland Chapter*; Jorge Pinto, *Chief Security Officer, Bank Credibom Portugal*

16:50 THE 7 DEADLY SINS: WILL CLOUD COMPUTING DRIVE AN INCREASE IN DEMAND FOR CISO SKILLS FOR THE CISO? KEY FINDINGS FOLLOWED BY GROUP DISCUSSION

Adrian & John will share key findings & guidance on how to manage cloud within an organisation from a senior CISO position & from a practitioner position. A group discussion will follow to understand primarily what the CISO role is in the Cloud by looking at this in relation to infrastructure & financial business lines. The group will split into 3 areas to discuss in roundtables the tensions between 3 areas before reporting back on key group findings:

1. CTO - key decision, creating secure infrastructure;
 2. CFO - financial risks & opportunities, strategic mission of cloud migration;
 3. CISO - how best to wrap security around the infrastructure
- What is the requirement for: enhanced technical knowledge; contract negotiation skills?
 - Will cloud computing drive an increase in demand for CISO skills?

Led by: Adrian Davis, *Senior Researcher, Information Security Forum (ISF)*; John Colley, *Managing Director, EMEA, (ISC)2 EMEA*

17:30 CLOSE OF DAY

17:30 - 19:45 'CLOUD NINE' DRINKS RECEPTION KINDLY SPONSORED BY:

CISO SUMMIT DAY 1 - WEDNESDAY 8TH JUNE 2011

Cyber Crime Risk: The Emerging Threat Horizon

08:00 MORNING COFFEE

08:10 CHAIRMAN'S OPENING
Marcus Alldrick, *CISO*, Lloyd's

08:20 CYBER CRIME KEYNOTE

09:00 STRATEGIC PARTNERSHIPS FOR CYBER SECURITY: IDENTIFY, PREVENT, DETER & DETECT THE REALITY KEYNOTE
Don Randall MBE, *Head of Security, Bank of England & Chairman of the 'Sister Banks', the City of London Crime Prevention Association and 'Project Griffin'*

09:40 FUTURE OF SECURITY: EVOLVE OR LOSE
Mike Maddison, *Partner, UK Head of Security & Resilience, Deloitte*

09:50 PEOPLE ARE AN ORGANISATION'S GREATEST ASSET & MOST CRITICAL THREAT: GUARDING AGAINST THE INSIDER KEYNOTE
Steve Cummings, *Special Adviser, Deloitte & Former Director, Centre for Protection of National Infrastructure (CPNI)*
Mr. Cummings held his previous position with the CPNI from its establishment in 2007 until 2009. In this role he was responsible for the delivery of security advice to public & private sector organisations comprising the UK national infrastructure. He also held several Government roles including being the programme leader for Critical Infrastructure Protection under CONTEST, the UK national counter terrorism strategy.

10:30 MORNING BREAK & EXHIBITION

11:00 CYBER INSECURITY: A GLOBAL CHALLENGE WITH MAJOR IMPLICATIONS TO GOVERNMENT & BUSINESS KEYNOTE
Dr. Alastair MacWillson, *Managing Director of Global Security Practice, Accenture*

11:30 ADVANCED PERSISTENT CYBER THREATS & CRITICAL INFRASTRUCTURE PROTECTION PANEL

- 'Zeus', 'Stuxnet' - the real impacts & implications of high profile attacks for governments & businesses
- Co-ordinating a multi-agency approach to dealing with cyber crime: where are we now? What needs to be done?
- Information sharing on cyber attacks - summary of major incidents to date
- Creating & maintaining global emergency response systems
- Cyber conflict & rules of engagement - what's next?
- Cyber terrorism - emerging trends & case studies
- Cyber revolutionary activity
- IP theft & industrial espionage in the form of cybercrime - a real national threat?
- Physical & cyber infrastructure security: have the boundaries really become inseparably blurred?
- Investigating the strategic & economic consequences of possible cyber attacks & cyber-assisted physical attacks
- How have networking & hosting sites such as Facebook, Twitter and YouTube influenced recent protests & uprisings across the Middle East & North Africa? Should this be a worry for CISOs?

Chaired by: Don Randall MBE, *Head of Security, Bank of England & Chairman of the 'Sister Banks', the City of London Crime Prevention Association and 'Project Griffin'*

Panellists: Detective Superintendent Charlie McMurdie, *Head of Police Central e-crime Unit (PCeU), Metropolitan Police*; Jim Reavis, *Executive Director, Cloud Security Alliance*; Matt Broda, *Senior Security Strategist, Cloud Security, Microsoft Trustworthy Computing Group*; Eddie Schwartz, *CSO, NetWitness Corporation*

12:10 STRATEGY DEVELOPMENT & PERFORMANCE MANAGEMENT: LINKING SECURITY & RESILIENCE TO ORGANISATIONAL OBJECTIVES & CONVERGING RISK SECURITY & CONTINUITY ACTIVITIES WITHIN A COMMON FRAMEWORK KEY CASE STUDY
Key case study looking at the emerging discipline of resilience: converging risk security & continuity activities within a common framework - focusing on the high level to convey concepts, ideas & practice. Michael is responsible for Governance, Risk & Compliance activities in respect of Information Security, Data Privacy, E-Crime Prevention, Business Continuity and Crisis and Incident Management across Santander's UK operations and sites.
Michael Paisley, *Head of Information Security, Data Privacy & Business Resilience, Santander UK Group of Companies*

12:50 LUNCH

13:50 THE SCIENCE OF SECRECY SPECIAL KEYNOTE
In 1999, Simon Singh offered \$20,000 for anyone who cracked ten coded messages using ciphers from different periods of history. He will explain how the codes were broken & who eventually won the prize, & the way he will explain lessons learned from history that are still relevant for CISOs today. In particular, he will demonstrate a genuine Second World War Enigma cipher machine. Simon is author of *The Code Book*, about cryptography; *Big Bang*, a history of cosmology; and *Fermat's Enigma*, which followed his Emmy-nominated Nova documentary about Fermat's Last Theorem. His most recent

book is *Trick or Treatment: The Undeniable Facts about Alternative Medicine*. He is also a broadcaster and has presented programs on BBC radio and television, and will share his knack of bringing relevant but novel ideas to life.
Dr. Simon Singh, *Best-Selling Author; Journalist, Radio Broadcaster, TV Producer and Director*

14:30 INFORMATION CHALLENGES IN A MULTI-BUSINESS GLOBAL FINANCIAL SERVICES FIRM: CLIENT DATA AS A KEY PRIORITY KEY CASE STUDY

- Establishing effective controls preventing data leakage
- Data owners assuming a key role in an effective Information Security approach

Hans-Peter Naegeli, *Divisional Information Security, Wealth Management and Business Banking, UBS*

15:00 AFTERNOON TEA BREAK & EXHIBITION

15:30 THE CONSUMERISATION OF MOBILE TECHNOLOGY: THE CHALLENGE OF SECURING HAND HELD DEVICES PANEL
As a wave of new tablets, mobile handsets & handset peripherals engulf businesses in 2011, the security risks & challenges around securing your workforce (& CEO) become ever more pronounced. This panel will explore what's on the horizon, how security around hand held devices is maturing - the risks, threats, tools & solutions.
Chaired by: Mark Carter, *Partner, UK Head of Information Security, Deloitte*
Panellists: Simon Riggs, *Global Head of IT Security, Thomson Reuters*; John I Meakin, *Director, Digital Security & CISO, BP plc*; Dr. Cheryl Hennell, *Head of IT Security and Information Assurance, Openreach*

16:00 CONSEQUENCES & CONFORMANCE KEY CASE STUDY
INSPIRING key case study based around a new book written by 12 authors, including Ricky Gervais, Karl Pilkington, Ben Goldacre, each have supplied an original piece in a different style (comedy, thriller etc) covering a different subject on information security measuring.

- Awareness
- Conformance testing of policy
- Staff perception of IRM type risks

Mark Logsdon, *Director Information Risk Management, Barclays*

16:30 A SENSIBLE APPROACH TO ZERO-DAY THREATS & TARGETED ATTACKS
Security today is fundamentally broken & a revolution is desperately needed. Among the failures of legacy security technologies, new IT environments, & the challenges of the threat landscape, CISOs must rethink how they are handling the most critical issues. Using the framework of discussing zero-day threats & targeted attacks, this session delves into sensible & groundbreaking approaches for changing the way security operations are conducted & provides solutions for combating the most difficult security problems.
Eddie Schwartz, *CSO, NetWitness Corporation*

17:00 STOPPING CYBER CRIMINALS: FACING THE GROWING THREAT OF ONLINE FRAUD AGAINST RETAIL & BANKING CUSTOMERS PANEL
eCrime threat evolution update on protecting retail & banking customers & dealing with recent explosions in DDOS attacks - following recent high profile events like WikiLeaks (related), 'hacktivism', attacking infrastructures, intruder detection, various technologies, access controls...

- How may the threat landscape change? What are the current threats?
- Hacks, DDOS / botnets & extortion, data breaches, fraud & identity crime
- Serious Organised Crime Groups - how are they evolving?
- Mobile banking applications & challenges to the financial & retail sectors
- Positioning your organisation to effectively deal with these threats
- Bringing in subject matter experts on eCrime
- What's next on the e-crime horizon?

Panellists: Mark Logsdon, *Director Information Risk Management, Barclays*; James Rendell, *Director, UK eCrime Prevention Lead, Deloitte*; Eddie Schwartz, *CSO, NetWitness Corporation*; Jorge Pinto, *Chief Security Officer, Bank Credibom Portugal*

17:30 CLOSE OF DAY

Dr. Stefano Zanero, *Chair, Computer Society, Italy Chapter at IEEE, Founder, Cloud Security Alliance Italy Chapter, Director, ISSA, Italy, Assistant Professor, Politecnico di Milano*

09:20 BEYOND THE CLOUD KEYNOTE

Ray Stanton, *Executive Global Head, Business Continuity, Security and Governance Capabilities BT, British Telecom*

09:50 THE BP APPROACH TO INFORMATION SECURITY KEY CASE STUDY

John I Meakin, *Director, Digital Security & CISO, BP plc*

10:20 HOW TO CONTROL YOUR JOINERS, MOVERS & LEAVERS: IDENTITY MANAGEMENT KEY CASE STUDY

- Authentication • Cloud computing challenges & opportunities
- Enterprise single sign-on; entitlement management
- Governance, risk & compliance • IAM architecture
- IAM programme management • Identity & Access intelligence

Steve Robinson, *Director of Security, VocaLink*

10:50 MORNING BREAK

11:20 REVISITING SOCIAL NETWORKING THREATS: HOW DO WE RECONCILE OPENNESS & SHARING WITH CONFIDENTIALITY & DATA CLASSIFICATION? KEY CASE STUDY

David Cripps, *CISO, Investec*

11:50 DIGITAL CRIME & IP CRIME: A RAPIDLY GROWING CHALLENGE KEY CASE STUDY

The rise in digital crime & IP crime will be significant within the next 5 years. Intellectual Property Crime across Europe & most certainly in the digital space for a variety of reasons, including: • Highlighting why business & law enforcement must work together, drivers & benefits • The importance & dangers / limitations of sharing data (intelligence & information) • Prosecution versus disruption • Diversification of crime models affecting business

Phillip Davies, *Head of Investigations, British Sky Broadcasting Ltd*

12:20 SECURITY GOVERNANCE & THE INSIDER THREAT: PROTECTING YOUR CRITICAL ASSETS IN TIMES OF SOCIAL NETWORKING; INCREASED IP THEFT & INDUSTRIAL ESPIONAGE DEBATE

- How have networking & hosting sites such as Facebook, Twitter and YouTube influenced recent protests & uprisings across the Middle East & North Africa? Should this be a cause of concern for CISOs?
- Corporate risk assessment of modern technology risk - planning for the mitigation of reputational damage • Insider threat: building a secure workforce • Dealing with highly interactive employees (social networks / Facebook) • Handling confidential documents in a highly protected environment • Digital crime & protecting critical assets such as intellectual property (e.g. 'Operation Aurora') • Protecting the privacy of your employees versus protecting your data – a real debate format

Chaired by: Lady Olga Maitland, *CEO, Money Transfer International & Founder, Defence & Security Forum & Special Advisor to the President and Government of Equatorial Guinea*

Panellists: David Cripps, *CISO, Investec*; Peter Weger, *CEO, Brainloop AG*; Mohamed El-Refaey, *Founder, Egypt Cloud Community Forum (ECF) & Director, Cloud Security Alliance, Egypt Chapter*; Phillip Davies, *Head of Investigations, British Sky Broadcasting Ltd*; Andreas Christoforides, *Director, International Computing Centre (ICC)*

12:50 LUNCH

13:50 RISK ANALYSIS & MANAGING INFORMATION SECURITY INVESTIGATIONS: WHY PEOPLE ARE LOSING CRITICAL DATA HAND KEY CASE STUDY

Daniel Chapman, *Global Investigations Manager, TNT Express*

14:20 CISO 'THINK TANK' DISCUSSIONS

New for 2011 – select from 4 pre-selected 'think tank' discussions in 4 corners of the room on how core areas are maturing – the risks, threats, tools, solutions. Facilitated 5 minutes introduction, 10 minutes discussion. You will then rotate & repeat choosing your preferred topics for example:

1. LEGAL BREAKOUT FOR CISOs: HOW TO DEFEND YOURSELF & AVOID COURT
2. WHAT DOES THE FUTURE HOLD FOR IDENTITY MANAGEMENT?
3. EAVESDROPPING
4. THE ULTIMATE DEFENCE: THINK LIKE A HACKER

Led by: Tony Crilly, *Managing Director, Saladin Technical Services plc*

Led by: Peter Wood, *Chair of the Advisory Board, Cloud Security Alliance, UK & Ireland Chapter*

14:50 ACHIEVING EFFECTIVE IS RISK OVERSIGHT THROUGH ASSURANCE OF LOGICAL ACCESS & THIRD PARTY CAPABILITY KEY CASE STUDY

- The Nationwide context • Why oversight & assurance is important: Its purpose & scope; The fit with the 3 lines of defence • How it's done at Nationwide: Resources applied; Responsibilities; Approach to work; Outcome

Phil Genge, *Head of Information Security, Nationwide Building Society*

15:20 AFTERNOON GELATO BREAK & SPONSORS' PRIZE DRAW

15:50 REWRITING THE CISO JOB DESCRIPTION: TRENDS FOR INFORMATION SECURITY PROFESSION PANEL

Business expectations for CISOs have reached a tipping point - with security convergence, information risk & wider responsibilities being reported. This interactive panel looks at the CISOs current job description & together develops new expectations, qualifications & measures for the CIOs professional success. • What skills & fields? (strategy, policy, risk management, incident response & threat management) • Recruiting future 'cyber security warriors' • Finding, developing & keeping a top team of cyber security professionals • Will cloud computing drive an increase in demand for CISO skills for the CIO? • Is there one crucial difference between a top CISO & an average CISO?

Chaired by: John Colley, *Managing Director, EMEA, (ISC)2 EMEA*
Panellists: Geoff Harris, *UK Management Counsel, Information Systems Security Association (ISSA) – UK*; Dr. Cheryl Hennell, *Head of IT Security and Information Assurance, Openreach*; Dr. Eduardo Gelbstein, *Adjunct Professor, Webster University (Geneva)*

16:20 COMBATING & MANAGING CYBER SECURITY RISKS IN A TRANSPORT NETWORK KEY CASE STUDY

- Strategies for identifying, shaping & providing assurance on security risks • What is protective security assurance – the tools & techniques • Countering high profile & significant security risks such as insider threat

Richard Bell, *Security Risk & Assurance, Transport for London (TfL)*

16:50 THE CISO RADAR - WHAT ARE THE "NEXT BIG THINGS" THAT WILL HIT THE HEADLINES WITHIN THE NEXT 5 YEARS? PANEL

The risks, threats, tools & solutions with the biggest impact & long term effects on the information security field... • The top 10 information security stories of 2010 • What are the "next big things" in next 5 years? • Which organizations face the biggest threats & how this is changing? • Defining today's & tomorrow's high value targets • More convergence on the horizon? • Top predictions for new ways to protect companies' tangible & intangible assets? • What do you feel the single biggest change to security professionals will be in 2011? • What are you/ your organization doing to prepare for this?

Chaired by: Ray Stanton, *Executive Global Head, Business Continuity, Security and Governance Capabilities BT, British Telecom*

Panellists: Steve Robinson, *Director of Security, VocaLink*; Michael Paisley, *Head of Information Security, Data Privacy & Business Resilience, Santander UK Group of Companies*; Corradino Corradi, *Head of ICT Security & Fraud Management, Safety, Security and Facilities, Vodafone Omnitel N.V.*

17:20 CLOSE OF DAY

17:30 - 19:30 DRINKS RECEPTION KINDLY SPONSORED BY:

19:30 – 21:30 DINNER KINDLY SPONSORED BY:

CISO ROUNDTABLE 2011 - FRIDAY 10TH JUNE 2011

How are you preparing for the future? How do you measure up against your peers in security performance?

Timings: Coffee 08:30; Start 09:00; Coffee Break 11:00; Close & Lunch 13:30 – 14:30

Co-chaired by:

- Charles V. Pask, *Managing Director, ITSEC Associates Ltd*
- Prof. Ing. Claudio Cilli, *Department of Computer Science, University of Rome, President of ISACA Rome Chapter*

Facilitated by:

- Eddie Schwartz, *CSO, NetWitness Corporation*
- Floris Van Den Dool, *Security Practice Leader, Europe, Africa and Latin America, Accenture*
- Richard Bell, *Security Risk & Assurance Manager, Transport for London (TfL)*
- Marcus Alldrick, *CISO, Lloyd's*
- Dr. Cheryl Hennell, *Head of IT Security and Information Assurance, Openreach*
- Adrian Davis, *Senior Researcher, Information Security Forum*

The **CISO Roundtable** is a discussion 'think-tank' for thought-leaders & practitioners in information security. The roundtable provides an unrivalled benchmarking forum. It is the chance to gain inspiration & insights from experts & peers from around the world - held under the Chatham House Rule. The focus is on roundtable discussions & group work, with sessions facilitated by established practitioners. You will meet & benchmark with professionals who face a similar set of challenges as you in a 'hands on', proactive & inspirational environment.

Held under the Chatham House Rule - No press are permitted. The entire session will be conducted as a 'closed doors' session, allowing participants to discuss real life challenges & benchmark proven & possible approaches.

Your important input into key topics for discussion on the day - the final agenda will be determined by the input of participants beforehand. Participants will be able to work on issues pre-identified as critical, or on those that are participant-proposed at the Summit.

Interactive layout - the seating will be in true roundtable style. No PowerPoint slides will be used (flipcharts only) to allow for a more intimate, progressive & open exchange.

Discussions including for example:

- How do you measure up against your peers in security performance?
- Learn where your organisation is most likely to be attacked
- What challenges are other CISOs facing in creating reliable metrics
- Dealing with increased insider threats
- How are you preparing for the future? An examination of what will prove to have the biggest impact & long term effects on the information security field as a whole

A 'Spouse-Partner Programme' will take place in Rome during the roundtable (see back page for further details).

The 8th Annual CISO Summit and Cloud Security Forum are Supported by:

Information Security Forum - ISF is recognised as the world's leading Information Security organisation & independent industry authority. Through its members, the ISF brings together & harnesses the knowledge & experience of over 300 major international business & government agencies to meet the increasing demand for practical, business-driven solutions to information security & risk management problems. The Information Security Forum is an independent, not-for-profit organisation, established in 1989. It is owned & governed by its members & managed by a professional team. www.securityforum.org

(ISC)2 - The International Information Systems Security Certification Consortium, Inc. [(ISC)2®] is the internationally recognised Gold Standard for certifying information security professionals. Founded in 1989, (ISC)2 has certified over 54,000 information security professionals in 135 countries. The CISSP, CISSP-ISSEP®, CISSP-ISSAP® & SSCP are among the first information technology credentials to meet the stringent requirements of ANSI/ISO/IEC Standard 17024. (ISC)2® is the non-profit global leader in educating & certifying information security professionals throughout their careers. www.isc2.org

Information Systems Security Association (ISSA) - UK & Poland is a not-for-profit international organisation of information security professionals & practitioners. It provides education forums, publications & peer interaction opportunities that enhance the knowledge, skill & professional growth of its members. www.issa.org

Information Systems Audit and Control Association (ISACA) - Rome, Valencia, Denmark, Belgium With 95,000 constituents in 160 countries, ISACA is a leading global provider of knowledge, certifications, community, advocacy and education on information systems (IS) assurance and security, enterprise governance and management of IT, and IT-related risk and compliance. www.isaca.org

Information Security Society Switzerland (ISSS) - more than 700 Swiss Information Security Professionals extend their personal network through the Information Security Society Switzerland ISSS, which was founded in 1993. ISSS is a non-profit association, which organizes security events & offers rebates on security literature and partner security events. In the member-only online forum & in special interest groups initiated by the members, security professionals get access to insider news & share personal experiences. www.issss.ch

The CSO Roundtable of ASIS International brings together senior security executives from the world's largest and most influential organizations. This by-invitation only organization is dedicated both to assisting security executives in their careers & to elevating the status of security professionals in the C-suite. Benefits include CSO-only educational & networking opportunities, special sessions at ASIS events, & an annual conference. A password-protected Web site allows CSOs to share opinions in discussion postings, search through a tailored database of policies, procedures, & benchmarks, & enjoy the resources of our vendor-partners. For more information about joining, contact Peter Piazza at ppiazza@asisonline.org

Jericho Forum®, the leading international IT security thought-leadership association, continues its mission on re-thinking information security to enable secure enterprise collaboration in a "de-perimeterizing" world - setting directions for the security solutions we need in a business world where Cloud Computing holds huge promise. The forum's current focus includes Identity & Access Management, Self-Protecting Data, and Real-Time Risk Management. The forum continues to obtain almost daily media exposure (especially via online press and blogging) on its activities and recommendations. Sponsorship & Exhibition Opportunities at the 8th Annual CISO Summit & Roundtable and the Cloud Security Forum...

Attendees at MIS Training's CISO Executive Summits and the Cloud Security Forum are senior directors of information security & technology risk from across business & governmental sectors internationally. This gathering of normally difficult to reach executives is an excellent platform for companies to influence with brand profiling & to ensure market position. Given MIS background in information security training courses, delegates typically comprise of 98% 'practitioners' (e.g. heads of information security, CISOs, IT & senior security & risk executives). All sponsorship packages include: a number of included client & personnel places, a table top exhibition & speaking options. For more information, please contact shook@mistieurope.com, or call now on +44 (0)20 7779 8866.

What did attendees say about the last CISO Executive Summit & Roundtable?

"One of the best conferences I attended bringing together key industry players willing to discuss openly the issues they face together"

CSO, AVIVA

"The only IT Security event I will attend!"

Head of I.S., Baile Grifford

"For every CSO/CISO that's feeling lonely or frustrated with their work, come to a MIS CISO Executive Summit & Roundtable and discuss the issues. Get better with the best!"

CSO, Bank Credibom

About the Venue & Accommodation

The 8th Annual CISO Executive Summit & Roundtable & Cloud Security Forum will take place at:

Ergife Palace Hotel

Via Aurelia, 619
00165, Rome, Italy
Tel: + 39 06 66441, Fax: + 39 06 6632689
www.ergifepalacehotel.com/eng/

Background & Location:

Ergife Palace Hotel established in 1978 is an up-beat hotel offering modern facilities along with age old Roman hospitality. The location is good being close to a few pizzerias and trattorias and within walking distance of the metro (approx. 15 minutes). The hotel is 20 minutes from the centre of Rome and 20 minutes from the main airport (Fiumicino - Leonardo da Vinci Airport of Rome). The Ergife has an Olympic-sized pool and is perfect either for relaxing or doing business.

Accommodation & Reservations:

MIS Training Institute has arranged the following discounted rates at the Ergife Palace Hotel:
Standard Double Room for Single Use: Euros 120,00 per room
Standard Double Room: Euros 140,00 per room

- All rates are valid per room per night, include VAT & breakfast
- Delegates are responsible for the arrangement & payment of their own accommodation in Rome
- To make a reservation please send an e-mail to the following e-mail addresses referencing 'MIS Training': ergife.booking@ergife.com or info@ergifepalacehotel.com
- MIS Training is not liable or responsible for any hotel bookings. Nor can we guarantee availability as limited rooms are available.

Payment Methods

Pay Online at www.mistieurope.com

(all fees must be paid in advance of the event)

Pay Online at www.mistieurope.com

- Cheque enclosed - Please invoice my company PO# (payable to MIS Training)
- Credit Cards can be accepted over the phone only. Please call +44 (0) 207 779 8944

Please send me information on:

- 5th Annual Fraud & Corruption Summit, 6 – 8 April 2011, Copenhagen
- 6th Annual Audit, Risk & Governance Africa Conference, 25 – 29 July 2011, Sugar Beach Resort, Mauritius
- 2nd Annual ICT Security Summit Africa, 19 – 23 September 2011, La Palm Royal Beach Hotel, Accra
- 3rd Annual Security Africa Summit, 22 – 25 November 2011, Vineyard Spa & Hotel, Cape Town

CISO Latin America: Seguridad de la Información, Brazil

For further information on the above events, please contact Sara Hook, Director of Conferences, MIS Training Institute Tel: +44 (0)207 779 7200 or Email: shook@mistieurope.com

Cancellation Policy: Should a delegate be unable to attend, a substitute may attend in his or her place. A credit or refund, minus 10% administration charge, is available if written notification is received by 18th May 2011. Thereafter, no refunds will be given. MIS reserves the right to change or cancel this programme due to unforeseen circumstances. Founded in 1978, MIS Training Institute is the international leader in providing training & conferences to information security, audit, fraud & IT audit professionals. With offices in the USA, UK, & Asia, MIS is a division of Euromoney Institutional Investor Plc (FTSE250) and is part of the Daily Mail & General Trust (DMGT). www.mistieurope.com. To Register Call +44 (0) 20 779 8944, Fax +44 (0) 20 7779 8293, Email: mis@mistieurope.com or Visit www.mistieurope.com/CISO or www.mistieurope.com/cloud

Included FREE Spouse programme - Rome (Morning of Friday 10th June 2011)
 Given the senior level of attendees, the strong networking focus & the attractive locations chosen for the CISO Summits, many CISOs traditionally chose to bring partners to this event or arrange to stay on for the weekend. As such, MIS will organise a spouse programme to take place Friday 10th June 2011, while delegates will be attending the CISO Roundtable. This offers a unique opportunity for spouses / guests to meet up & visit Rome's world-class galleries, shops, cafes & museums as a group. The itinerary will be suited for individual needs & includes a guided visit of Rome. Entry fees to specific sites may apply. Email rgorham@mistieurope.com for further details.
